

Avilla Lions Repair Park Pavilion

Avilla Lions repaired the Lions Pavilion in the Avilla Park recently with help from local businesses, and some of the club members are pictured above. Diehm Construction tore out the old floor, dug out around the posts and poured the new floor. Some of the lawn was ruined around the pavilion during the project and Parrish Homes performed the final grading and reseeded the lawn at no charge as their contribution to the project. Don Monesmith of the Lions Club coordinated the project from getting bids and finding funds for the work to scheduling the work and reseeding the lawn. Stop by the park to see the refurbished pavilion. (NooZ photo by Barb Wolf)
